## 1.0 NSLDS Potentially Duplicate Loans By GA Report (PLNPD1)

The *Potentially Duplicate Loans by GAs Report* (PLNPD1) provides GA users a report of loans where the guaranty date of each loan is within a specified day count range. The report is driven by the entered day count value ranging from 1 to 9 days. The report is sorted by SSN.

This section contains extract file layouts that list the header, details, and trailer records for the extract version of the report. Each online extract request is used to generate one header record, one or more detail records, and one trailer record. Each record layout table contains the position, the data element name, description, field format, and length.
