## 1.0 NSLDS Status of Loans Purchased By ED Report for Schools (PLPED3)

The *Status of Loans Purchased by ED Report (PLPED3)* provides school users a report of loans that have been purchased by the US Department of Education under the Loan Purchase Program (referred to as PUT). This report displays the Federal Family Education Loan Program (FFELP) loans certified by the school that have been sold by the lender and provides the ED Servicer that currently holds the loan as well the previous Guaranty Agency (GA) that guaranteed the loan. The status of the loan transfer between the previous GA and the ED Servicer is also displayed. The report is sorted by SSN.

This document contains the layouts for the header, detail records, and trailer for the extract version of the report. Each report requested online will generate one header record, one or more detail records, and one trailer record. The record layout table contains the position, the data element name, description, field format, and length as they will appear on the extract.
